

02.11.2013

Dear Stephanie,

This testimonial comes to you in appreciation to Dr. John Rich, a true professional.

I had been dealing with Carpal Tunnel Syndrome for at least 25 years. My life had been a repetitious cycle of severe night time pain, weakness, burning and numbness of both hands. I had tried to ignore the symptoms, treating them with splints, Ibuprofen, Extra Strength Tylenol, ice, heat, periodic injections, until all became unsuccessful. Finally, I succumbed to having bilateral carpal tunnel releases. I had had previous finger joint replacement surgery by Dr. Rich in 2010 therefore there was no doubt who my choice of surgeons would be. I am now 6 months post-op and my only regret is that I waited so long. Dr. Rich has given me my life back. I can now sleep without pain, enjoy gardening, and can work comfortably again without pain. Not only is he an excellent surgeon, but a very caring and humble individual. I have already recommended a number of friends and family to him and will never hesitate to do the same in the future. Please share this letter with him.

Thank you.
Elaine Allegrucci
