

Gilman Young

Dear Ms. Bewick,

The following is a testimonial for Dr. Christopher Henderson.

Please feel free to contact me if you require additional information.

Sincerely,

A handwritten signature in black ink that reads "Gilman Young". The signature is written in a cursive style with large, flowing loops.

Dr. Henderson performed a three level anterior cervical herniated disc surgery With fusion, C4-C7 for me.

Beginning with the first consultation, he was sympathetic, encouraging, candid and professional.

I was allowed significant time to consider the surgery, then return and accept the option.

He explained in detail all aspects of the procedure as well as the recovery period.

The surgery went without incident and I was out of the hospital after one night.

In follow-up visits, Dr. Henderson has remained very supportive, offering to see me for any concerns.

I've had the condition for quite some time, undergoing physical therapy, injections, acupuncture and medications.

If I had only been referred to Dr. Henderson many years ago I would have spared myself pain, money and had a better quality of life.

I cannot thank Dr. Henderson enough. He, his staff and all the nurses and assistants that attended to me have helped me to regain a life free from pain.
