

I recently had my one year check up concerning my Right hip replacement performed by Dr. Harry Schmaltz of the Scranton Orthopaedic Specialists. Results were All Positive. I had the surgery on Feb 6<sup>th</sup> 2012. I AM A Letter Carrier with the USPS for 29 years + WAS concerned About the future of my career while I struggled walking with incredible pain from my Right hip. Dr. ~~Sma~~ Schmaltz performed my Replacement and after only 10 weeks of physical therapy I WAS back WALKING my daily Route of Approx 500 Steps AND 10.5 miles A day! I have had NO issues at all with my hip AS I continue to deliver my route. All the pain that I once suffered with is gone + people on my route have commented that I WALK LIKE A 25 year OLD. (I'M 52). A big thank you to Dr. Harry Schmaltz for such A fine job not only in the surgery but providing the information + ReAssurance that things will be OK AGAIN. AGAIN THANK YOU!
