

Dr Jordan, & Team

Thank you so much, I am
now jumping & running - (only
if I need to). It's amazing

After a dislocated foot & 3
breaks in my bone. I have
friends complaining that I walk
faster than they do.

I take an exercise class & feel
quite normal.

You came back after work hours
at the emergency room to make
sure that my dislocated foot was
really in the correct place.

You are top shelf.

God Bless,

Hathlem Kingsley Jacobs
