"Setting the standard of excellence
in bone and joint speciality care"

November 4, 2014

Dear Ms. Kopicki,

As you are aware, so much of the public's health care choices for providers are made after investigation, which can involve on-line searches and word-of-mouth referral from family and friends.

I am aware that you were recently provided Orthopedic Services by one of our physicians, Dr. Michael Tracy. He has indicated to me that you are pleased with the outcome, which certainly makes us happy and validates what we try to accomplish every day at Scranton Orthopaedic Specialists.

If you would consider writing a testimonial which we could publish on our website or use in our marketing (while protecting your identity), we would appreciate it. You might also consider going online to www.healthgrades.com or www.vitals.com and rating Dr. Tracy directly online. If your time constraints do not allow this, or your inclination is not to do this, please know that we certainly understand. If, however, you would care to write about our service, please accept our sincere thank you! Any testimonial can be directed to me at the address on the left.

Sincerely,

Stephanie Bewick
Practice Administrator
