Attn. Sen Orthopaedic Specialists

I would like to commend Dr. Michael R. Tracy on the great job he did operating on my elbow. It was a very bad & unusual break. He did not even know how much use, if any, I would ever have in that arm again.

It is now four months since my surgery. Between Dr. Tracy doing such a great job & the great therapists at Sen. Orthopaedics my arm is almost back to 100% of what it was. Thank you Dr. Tracy & my two therapists Terry & Crystal. Who knows? I may be seeing you again in the future. But I hope not. I don't want to break any more bones.

Thanks for Everything  
Gauss Cavaliere
