

Just dropping a note to say that I had rotator cuff surgery in Sept. 2013 and I couldn't be happier with the results. Dr. Tracy thoroughly explained what to expect and emphasized the importance of immobilizing the arm after surgery and then doing the exercises after that. I trust Dr. Tracy and would not hesitate to recommend him to others. Been six months and I can do it all. Looking forward to riding my bike pain free this summer. Only regret I have is not having the surgery sooner.

Thanks Dr. Tracy!

Nancy
