

August 3, 2018

Dear Stephanie Bewick (Practice Administrator)
Scranton Orthopaedic Specialists
334 Main Street, Suite 1
Dickson City, PA 18519

I am proud to know and want to write a
testimonial about Dr. Michael Tracy.
You may also use my name Diane O'Connell
Bottjer. Before I considered my operation
for a full shoulder replacement I had
to ask many friends and doctors. What
do you think of Dr. Tracy. They all
said he has zero infection rate and if
I had a shoulder problem I would
want Dr. Tracy to operate - He is the best.
What made me the most convinced of his
skills was a stranger in his waiting room.
The woman said Dr. Tracy changed my
life forever. Dr. Tracy changed my life
forever. I was in a car accident in the
year 2016. My shoulder increased in pain

for 2 years, to the point I could not pull my pants down to go to the bathroom. Dr. Tracy was straight with me and told me the positive and negatives of the surgery. Dr. Tracy did not know Diane. I had pain but doable. I rested for 8 weeks & did some exercises. Now I go for PT 2x a week. My improvement is incredible. I had my knee replacement done by an excellent Dr and that pain was worse.

I hope I never have to have a shoulder replacement again but I would choose Dr. Tracy.

Thank P.S. I also called the President
you
Diane & CEO of Moses Taylor & told
better him about Dr. Tracy & his team..
