

~~Staph infection of left elbow~~

~~Left elbow & shoulder surgery~~

Mr. You're are currently having

a half sleeve shoulder

surgery performed by Dr.

Michael Tracy. After three

rotator cuff surgery on the

same arm none of them

worked. I went to the Dr.

Tracy and he explained the

procedure to me in a very

professional manner.

Not only did he do an excellent

procedure but at my age 67

my left arm now feels

so good. I have never felt

this good in many years.

OVER

Thank you Dr. Tracy  
and staff especially Katie  
& Ashley they are true  
professionals. I would  
highly recommend them  
and Dr. Tracy to everyone  
which I already have.

Tom Opiel

10/20/2016 Thank You  
Tom Opiel

We may come if you  
want to.
